

Output Screen:

App.js:

The screenshot shows the VS Code editor with the file explorer on the left displaying a project structure. The main editor window shows the `App.js` file with the following code:

```
amazon > src > JS App.js > App
2 import './App.css';
3
4 function App() {
5   return (
6     <div>
7       <div className='login_main'>
8         <div className='login_heading'>
9           <h1>LOGIN</h1>
10        </div>
11        <div className='login_username'>
12          <label>Username:</label>
13          <input type='text' placeholder='Enter your username'></input>
14        </div>
15        <div className='login_password'>
16          <label>Password:</label>
17          <input type='password' placeholder='Enter your password'></input>
18        </div>
19        <div className='login_button'>
20          <button type='button' className='btnn'>Login</button>
21        </div>
22      </div>
23    </div>
24  );
25 }
26
27 export default App;
```

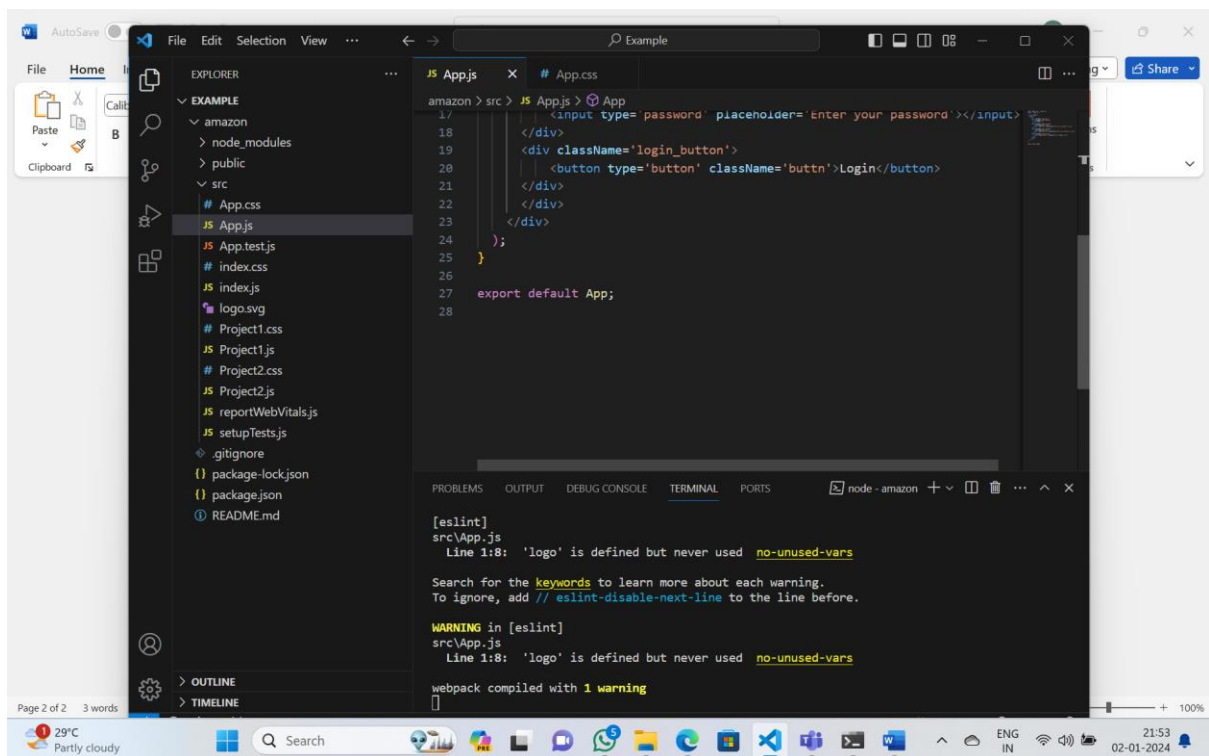

The terminal window at the bottom shows ESLint warnings:

```
[eslint]
src\App.js
Line 1:8: 'logo' is defined but never used  no-unused-vars

Search for the keywords to learn more about each warning.
To ignore, add // eslint-disable-next-line to the line before.

WARNING in [eslint]
src\App.js
Line 1:8: 'logo' is defined but never used  no-unused-vars

webpack compiled with 1 warning
```

The screenshot shows the VS Code editor with the file explorer on the left displaying a project structure. The main editor window shows the `App.js` file with the following code:

```
amazon > src > JS App.js > App
17 <input type='password' placeholder='Enter your password'></input>
18 </div>
19 <div className='login_button'>
20 <button type='button' className='btnn'>Login</button>
